

Health, Safety & Environmental Policy

Through the Amara Raja Way, we are committed to environmental protection, occupational health and workplace safety in all our activities pertaining to manufacture and dispatch of sheet metal products, fasteners, plastic components, plastic compounds, tools & molds and design, manufacture & dispatch of integrated material storage racks in a diligent and responsible manner focusing on:

- Prevention of air, water and soil pollution
- Prevention of workplace injuries and ill health
- Safe handling of lead and other hazardous materials
- Optimal utilization of energy, and sustainable use of natural resources through reduce, recycle and reuse concepts.
- Climate change mitigation and adaptation, and enhancing biodiversity and ecosystems
- Fulfilling the compliance obligations
- Eliminate hazards and reduce OH & S risks
- Commitment to consultation and participation of workers or representatives
- Continual improvement

We will create awareness on environmental protection, occupational health & workplace safety continually, for bringing value amongst our interested parties.
